Literary Device Poster

Objective:
Students will design a visually appealing digital poster that explains a literary device of their choice, provides examples, and highlights its significance in literature.

Instructions:
Choose a Literary Device, that we went through in the slides, or another you find that you would like to do.

Research & Create (Using Laptops)
Students will use their laptops to research their chosen literary device and then create a digital poster (using Google Slides, Canva, Microsoft PowerPoint, or any graphic design tool).

The poster should include:
Definition: A clear, student-friendly definition of the literary device.

Original Example: One or two original examples of the literary device that they create themselves.

Real-World Example: One example of the device from a novel, poem, song, or movie (cited properly).

Visuals: Add relevant images or designs that reflect or enhance the meaning of the device (e.g., imagery for "simile" that compares the sun to something bright).

Explanation: A brief paragraph explaining why the literary device is important in writing and how it helps convey meaning or emotions. (this will be done separately on another document that you will attach with your poster)

Design Requirements
The digital poster must be:

- Visually engaging with a balance of text and images.
- Well-organized, with headings for each section (definition, examples, explanation, etc.).
- Use color, fonts, and images that enhance the content without overwhelming it.

Submission & Sharing

After finishing, students will submit their digital posters on Edsby.

If time allows, have students share their posters with the class through a gallery walk or brief presentation where they explain the literary device they researched.

These will be printed and hung up in the classroom!
